

Mohamed Sameh

Data Scientist

Mansoura, Egypt | 01069757341 | m7samehmostfa10@gmail.com | github.com/zzzaaaaa019238as-ui | linkedin.com/in/mohamed-sameh

Summary

Second-year Computer Engineering student with a strong and growing focus on data science, machine learning, and artificial intelligence. Builds practical skills through coursework, structured training, and applied projects, with a particular interest in using data to address real-world problems. Committed to continuous learning and steady technical growth.

Education

Mansoura University — Faculty of Engineering Expected 2029
Computers & Control Systems Department — Second-year student
Excellent grade during first two years of study.

Technical Skills

Programming Python	Data Science NumPy, Pandas, Statistics, Matplotlib, Excel
Machine Learning Machine Learning, Neural Networks (fundamentals), CNNs (fundamentals), Deep Learning (beginning level)	Languages English — Intermediate

Projects

- Campfire — AI-Powered Camping & Hiking Companion**
Helps campers plan trips by bringing together location, weather, terrain, connectivity, and safety information in one place. Contributed to data collection and model training for the project.
- Plant Disease Detection**
CNN-based computer vision project that identifies plant diseases from leaf images; an LLM then provides disease information and suggested treatment, with results shown through a frontend interface. Responsible for dataset collection, preparation, cleaning, and CNN model training.

Training & Student Activities

- NTI — Machine Learning Summer Training** In progress
- Hawaii ICT Academy — Mansoura University**
Training experience.
- STARKS Team — Mansoura University**
Role: AI & HR.
- Breakin Point — Mansoura University**
Basic Hardware Training Program covering basic electronics and PCB design and fabrication; built a water-pump firefighting car as the program project.

Courses & Learning
